Who we are

Elite Engraving has been established since 1987, we work from our factory in East Bristol with easy access to the M4 and M5 motorways. We supply products and services to customers across the UK. We are proud to be an ISO9001:2015 certified company and hold approvals with many blue chip corporations but also work with many smaller companies. You are guaranteed the same level of service no matter what size your company is.

What we do

- Industrial engraving
- Screen printing
- Anodic printing
- Chemical etching
- Machining
- Sheet metal work
- Industrial painting
- Metal treatments

Labels and legends

Labels are made to customers specifications using a wide range of materials including:

- Engraved rigid or flexible laminates
- Screen printed vinyls and polycarbonates
- Acid etched Stainless Steel, Brass or Anodised aluminium
- Anodic printed aluminium

All the above are available in various shapes and sizes. We can also supply and engrave legend and eschution plates and lenses such as Cutler Hammer and Telemecanique.

Mimic Overlays

Reverse screen printed polycarbonates of various thicknesses and finish, these items have become a favourite with companies not wanting a finished metal panel. This type of item can be adhered to most surfaces to enhance the look and finish of the product.

Fabricated Items

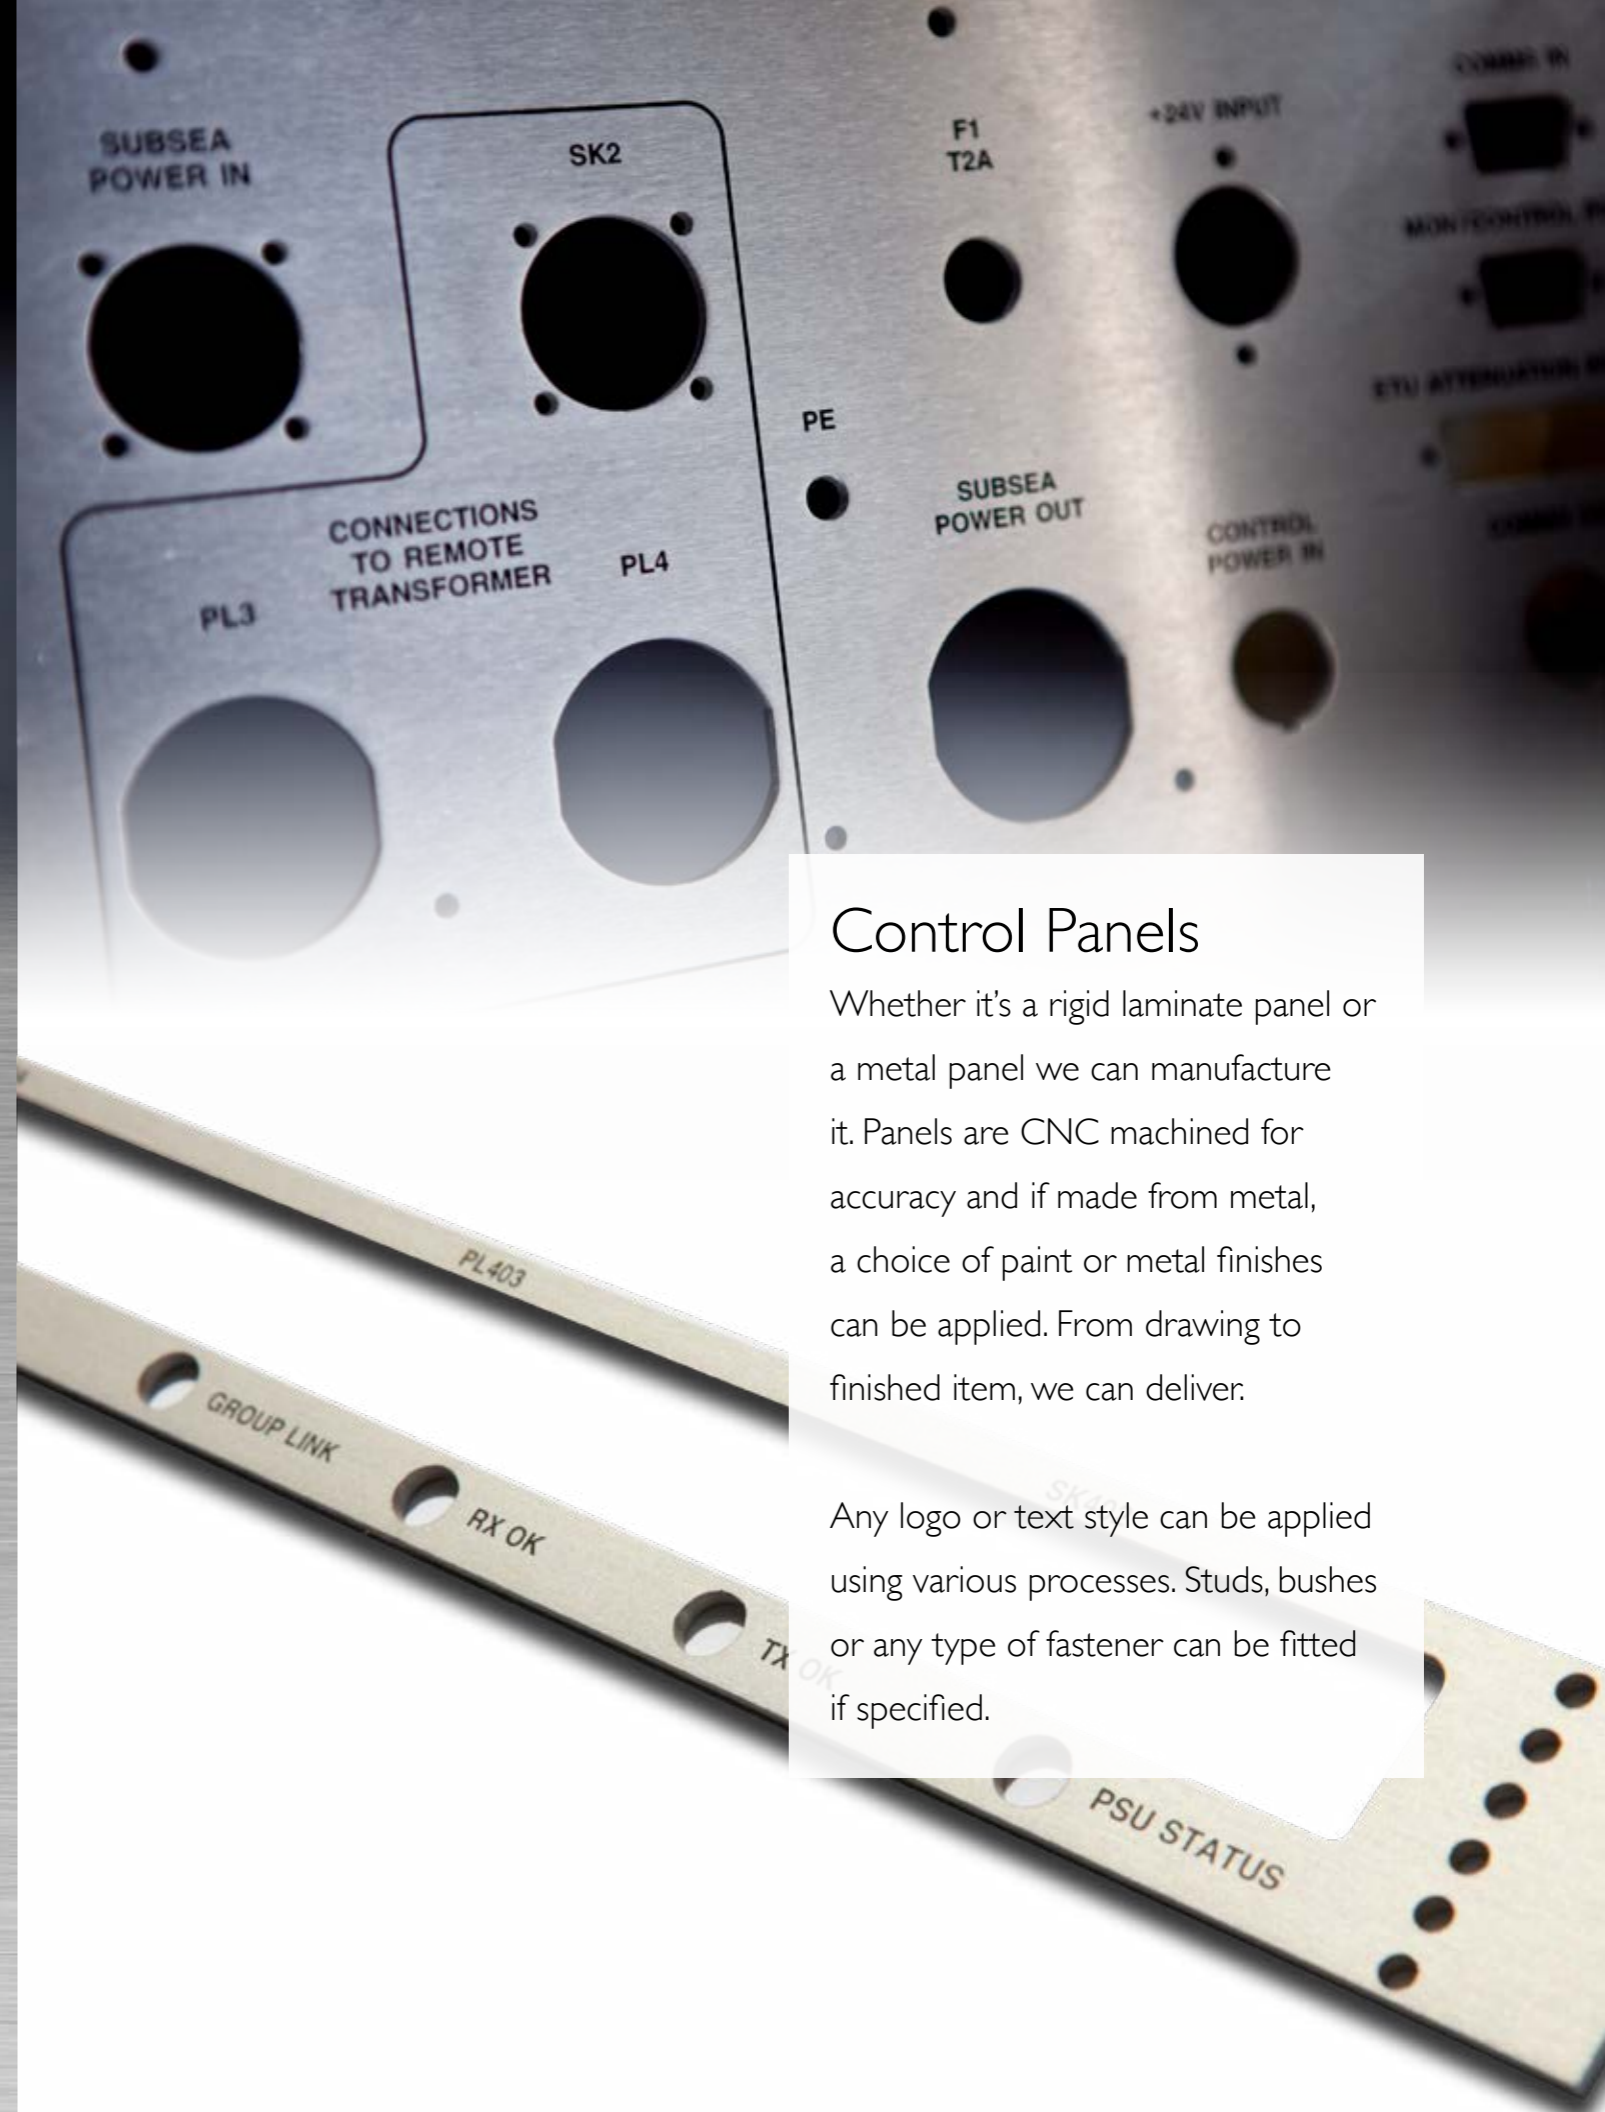

We can supply all types of fabricated products from a small bracket to a fabricated computer case. We can help you develop your product from conception to manufacture ensuring the highest quality procedures are adhered to at all times.

Signage

We can reproduce most images onto your material of choice. Signage is usually etched, engraved or screen printed and supplied to other engraving and sign companies. From artwork e-mailed in any format, we can produce official opening plaques to a full directory system. As this is usually work for a third party, end user discretion is always applied and delivery under plain cover is a frequent request.

Control Panels

Whether it's a rigid laminate panel or a metal panel we can manufacture it. Panels are CNC machined for accuracy and if made from metal, a choice of paint or metal finishes can be applied. From drawing to finished item, we can deliver.

Any logo or text style can be applied using various processes. Studs, bushes or any type of fastener can be fitted if specified.
